## Understanding and Screening for Trauma in Young Children

Friday, December 6, 2019 - 9:00am to 12:00pm

### Omaha

Many children entering the child welfare system have experienced trauma. Identifying trauma and appropriately responding is critical to ensuring the child's well-being.

This 3-hour training will teach the impact of trauma on young children, what treatments work, the basics of trauma assessments, and how to do a trauma screen.

Speakers: Jamie Bahm, MS and Samantha Byrns; UNL-CCFL, NRPVYC
